

**BAWUMIA**  
OUTLINES 100+ ACHIEVEMENTS  
OF THE NPP GOVERNMENT

# NOTES

In the last couple of years, the whole world has been hit mainly by two major external forces and Ghana has been no exception. The Covid-19 pandemic affected global supply chains and the response put a burden on public finances. The war between Russia and Ukraine hit fertilizer and grain prices, among others, and increased the prices of commodities back home. Inflation, exchange rate depreciation and debt levels globally hit a 40 year high as countries scrambled to cope with the impact on lives and livelihoods. In Ghana, inflation increased from 12.9% in December 2021 to 54% by December 2022 with an attendant depreciation of the Ghana cedi by 30% in 2022.

These crises (COVID and Russia-Ukraine) came at a time when we were yet to fully recover from some major challenges we inherited. In particular, we inherited excess energy capacity payments resulting from power purchase agreements entered into by the previous government. I said last year, and the World Bank has also recently pointed out the reckless nature and the catastrophic implications of these contracts. Under these PPAs we have been required to pay some \$1 billion annually for power we did not consume over the last six years.

The combined effects of these phenomena blighted an economy that grew at an average rate of about 7% between 2017-2019. Our debt became unsustainable, and the government had to undertake a domestic debt restructuring and seek IMF support to stabilize our economy.

These developments have been latched on by our political opponents in an attempt to play down the achievements of our government in the last six years. There has been so much talk from politicians and commentators alike. It is said that Politicians have a habit of talking a lot, but they hardly talk about what they have done.

It is actually better to judge politicians not by what they say but by what they have done to solve our problems when given the opportunity to serve. So, in this regard, what problems have the NPP government solved or tackled since coming into office? Today I intend to shed some light on this.

Before this however, let us remind ourselves about the state of the economy we inherited in 2017.

- High unemployment
- Dumsor for 4 years
- a virtually collapsed national health insurance system
- a nearly collapsed national ambulance system,
- freeze on public sector employment,
- an almost collapsed banking sector
- Massive annual increases in utility bills
- High depreciation of the cedi
- Poor Road infrastructure
- Persistent Negative trade balance over three decades
- Low agricultural growth
- Low industry growth
- Cancellation of teacher training allowances
- Cancellation of nursing training allowances
- 3-month teacher pay policy
- Many children unable to attend senior high school because of financial burden
- Bureaucracy and corruption in the delivery of public services at Ports, DVLA,

Passport office GRA, etc,

- Limited financial inclusion
- No functioning address system
- No unique National identity system
- Economy saddled with \$1 billion per year in excess capacity payments as a result of PPAs signed between 2012-2016
- Massive revenue leakages at ECG
- No vehicle for the development of Zongos and deprived communities
- Difficulty in obtaining Tax ID numbers and filing taxes
- Sickle cell sufferers had no access to hydroxyurea under NHIS
- Childhood cancers not covered under NHIS
- Unequal access to secondary education and TVET
- Availability of Chalk in schools was a problem

# NOTES

When you look at this tall list of achievements, one cannot but admit that they are monumental! Let nobody tell you that we don't have a message for 2024! I must hasten to add that this does not mean we have done everything we intended to do or ought to have done. There is clearly a lot more to do and we will work hard to do more.

It is important to note that many of the transformational policy initiatives that we have introduced since 2017 are being done for the first time since independence. What is interesting is that because many of them have not been done before, many people shackled by a mindset of impossibility have argued that they are not possible, but we made them possible.

IT IS POSSIBLE!

IT IS POSSIBLE!!

IT IS POSSIBLE!!!

God Bless our homeland Ghana.

## What the NPP has done about the Problems we inherited

Problems Inherited/Faced	What We Have Done So Far
<p><b>1</b> Low GDP Growth</p>	<p>Overall GDP growth - 2013-2016 Average (3.9%) Overall GDP Growth -2017-2019 Average (7%) Overall GDP growth - 2017-2022 Average (4.9%)</p> <p>Notwithstanding the global economic crisis from COVID-19 and the Russia-Ukraine war, economic growth under our government is stronger than we inherited.</p>
<p><b>2</b> Declining Agricultural Production</p>	<p>Agric GDP growth - 2013-2016 Average (2.9%) Agric GDP growth – 2017-2022 Average (6%)</p> <p>Implemented the Planting for Food and Jobs Programme. Subsidies for seeds and fertilizer. Significant increase in yields. Maize production increased from 1.8 MT/HA in 2016 to 4.0 MT/HA. Similar for rice (from 2.7MT to 4.5MT) soybean, sorghum and vegetables</p> <p>Notwithstanding the global economic crisis from COVID-19 and the Russia-Ukraine war, agricultural growth under our government is stronger than we inherited.</p>
<p><b>3</b> Declining and weak industrial growth. Enterprises shutting down:</p> <ul style="list-style-type: none"> <li>• Anglogold Ashanti</li> <li>• WAMCO</li> <li>• Ghana Publishing Ghanapost</li> </ul>	<p>Industry GDP growth- 2013-2016 Avg (3.3%) Industry GDP growth- 2017-2022 Avg (4.85%) Revival of:</p> <ul style="list-style-type: none"> <li>• Anglogold Ashanti</li> <li>• WAMCO</li> <li>• Ghana Publishing</li> <li>• Ghanapost</li> </ul> <p>Notwithstanding the global economic crisis from COVID-19 and the Russia-Ukraine war, agricultural growth under our government is stronger than we inherited.</p>

Problems Inherited/Faced	What We Have Done So Far
4 High Bank Lending Rates	2013-2016 Average – 28% 2017-2022 Average – 24%  Notwithstanding the global economic crisis from COVID-19 and the Russia-Ukraine war, bank lending rate under our government are lower than we inherited.
5 Persistent negative trade balance for over a decade	2017- 2022 – Positive trade balance for six consecutive years notwithstanding Covid and the Russia Ukraine war! First time this has happened in over 30 years!!!
6 Rapid exchange rate depreciation	Cumulative depreciation 2008-2016 – 72% Cumulative depreciation 2016-2023 – 62%  Notwithstanding the global economic crisis from COVID-19 and the Russia-Ukraine war, exchange rate depreciation under our government is thus far lower than we inherited.
7 Gold was a very small proportion of Ghana's gold reserves	Bank of Ghana has implemented a gold purchase program to increase Ghana's forex reserves. Bank of Ghana has increased its gold reserves by 75% since 2021.
8 Constant pressure on dollar reserves to finance oil imports	Implemented a gold for oil policy to buy gold using cedis and pay for oil imports using gold.  The policy has introduced more competition and abolished the use of forward exchange rates in fuel pricing. This has resulted in a reduced fuel prices (and transport fares) and reduced the demand for forex. Has enhanced exchange rate stability.
9 No industrial policy to encourage the setting up of factories	Implemented One District, One Factory Initiative. Since its inception, 143 companies are in operation under 1D1F. 126 at different stages of completion
No domestic automotive sector for vehicle assembly or manufacturing	The new Automotive Sector Development Policy has resulted in VW, Sinotruk, Kantanka Group, Toyota, Peugeot, and Nissan, KIA, Hyundai, are all assembling cars in Ghana.  A Ghanaian company is also on course to build a plant for the assembly of Electric Vehicles next year. That will be the first in West Africa
10 Limited local processing of cocoa	We have increased local processing of cocoa from 20% to 40%.

Problems Inherited/Faced	What We Have Done So Far
95 Large average annual increases in electricity tariffs	2013-2016 – average annual increase of 41.3% 2017-2023 – average annual increase of 9.2% (excluding free electricity for lifeline and 50% reduction for others during COVID)
96 Two-year rent advance demanded by landlords denying access to rental accommodation to many	Introduced the National Rental Assistance Scheme to provide loans to renters
97 Teachers were being paid 3-months arrears for 2-3 years worked	Government has abolished the 3-month arrears policy for teachers who had worked 2-3 years
98 Burden of market tolls for kayayei	Government has also abolished market tolls for kayayei
99 Stagnant peacekeeping allowances for soldiers	Government has increased the allowances for peacekeeping soldiers from \$30 to \$35
100 Share of DACF for persons with disabilities stuck at 2%	Government has increased the share of the DACF to persons with disabilities by 50%
101 Many communities practising open defecation	The massive investment in water and sanitation facilities in many rural and deprived communities by government has resulted in over 5400 communities being declared open defecation free (ODF)
102 Infant Mortality/1000 live births  Under Five Mortality/1000 live births	2016 – 37.9 2021 – 32.6  2016 – 53 2021 – 44
103 Large number of students unable to access senior high school education. No gender parity	Government has implemented free SHS. Enrolment has increased by 75% and there is now virtual gender parity. Enrolment has increased from 800,000 to 1.4 million

Problems Inherited/Faced	What We Have Done So Far
82 Teacher training allowances cancelled	Teacher training allowances have been restored. GHC 770 million released over last 5 years
83 Nursing training allowances cancelled	Nursing training allowances have been restored. GHC 860 million released over last 5 years
84 Limited availability of scholarships	Scholarships increased by 70%
85 Difficulty in access to medicines and blood by remote areas	Introduced drones in the delivery of critical medicine, vaccines and blood to people in remote parts of the country. Ghana has now the largest medical drone delivery service in the world. There are six Zipline Distribution Centres in Omenako, Mpanya, Vobsi, Sefwi Wiawso, Kete Krachi and Anum.
86 No pensions for cocoa farmers	A cocoa farmer pension scheme has been began and implementation has started through a pilot.
87 Childhood cancers not covered by NHIS. Treatments very expensive	Four Childhood cancers covering 85% of childhood cancers are now been covered by the NHIS
88 Hydroxyurea, a very effective drug for sickle cell sufferers was not covered by the NHIS. It is expensive	NHIA has announced that Hydroxyurea is now covered by the NHIS
89 COVID-19 Pandemic	Ghana has been acknowledged internationally as one of the best countries in the world in the management of COVID-19. Many lives and livelihoods were protected
90 Delays in receipt of SSNIT pension after application	SSNIT pension can now be received within 10 days of application
91 Banking system was about to collapse	With Banking sector clean-up, we have rescued the banking system and saved the deposits of 4.6 million Ghanaians by spending GHC25 billion.
92 Limited availability of LEAP program	Government has expanded the Livelihood Empowerment Against Poverty (LEAP) programme by 53%
93 Inadequacy of the Capitation grant for basic education	Government has Doubled the capitation grant
94 Burden of utility bills payment for tertiary students	Government has abolished utility bills for tertiary students

Problems Inherited/Faced	What We Have Done So Far
11 Ghana not maximising its Tourism potential	Implementation of the flagship policies of the Year of Return, Beyond the Return and the December Music Festivals has made Ghana a global destination for the black diaspora and other tourists
12 Declining fish production	Ultramodern National Aquatic Center and Commercial farm established as part of the implementation of the Greenhouse Aquaculture Technology system to help increase domestic fish production and to increase expertise in aquaculture and to create jobs for the youth.
13 COVID-19 exposed Ghana's vulnerability as a result of the lack of local vaccine manufacturing capacity	<ul style="list-style-type: none"> <li>- A National Vaccine Institute has been commissioned and a vaccine manufacturing plant is being established to manufacture 600 million doses of vaccines annually for COVID-19, Malaria, tuberculosis and other vaccines. Production will start in 2024.</li> <li>- Ghana would also start the production of anti-snake venom serum this year.</li> </ul> <p>Ghana is the first country in the world to approve the new R21 Malaria Vaccine for children aged between 5 months and 36 months</p>
14 Unemployment	<p>Created more jobs (2.1m) in six years than any other government since independence.</p> <p>Recruited nurses, doctors, and other healthcare workers, teachers, police officers, and many others.</p> <p>Public sector – 1.2 million</p> <p>Private Sector (SSNIT) – 975,000</p> <p>The records that are available therefore show that notwithstanding the challenges, our government has created more jobs than any government in the fourth republic and probably since independence.</p>
15 No unique National Identification system	We have implemented a national Identification system with the Ghanacard.
16 Access to student loans limited for many students because of the inability to obtain guarantors for the loans Many students could not attend tertiary institutions.	No guarantor student loan policy introduced for students with the Ghanacard

Problems Inherited/Faced	What We Have Done So Far
17 No functional National Address System	We have implemented the Digital Property Address System. No more need to use of landmarks like the blue house or koko seller to provide directions.
18 Inability to send mobile money from one telco to another	We have implemented mobile money interoperability which allows customers of one telco to transfer mobile money to customers of another telco.
19 Inability to send money between bank accounts and mobile money wallets	We have implemented interoperability which allows the transfer of funds between bank accounts and mobile money wallets
20 Majority of adults did not have a bank account. Many people faced difficulties in opening a bank accounts: literacy, referees, etc.	As a result of mobile money interoperability the vast majority of adult Ghanaians now practically have a bank account. To open a bank account today all you need is a Ghanacard and a mobile phone. No filling of forms is needed. Unsecured micro loans are available via mobile money and interest is paid on balances. Ghana is now ranked number one in Africa in terms of access to financial inclusion
21 Cash dominance in the payment given high cost of Point of Sale Terminals for merchants.	Implemented Africa's first Universal QR Code payment system with Banks, Telcos and fintechs on one platform
22 Difficulty of renewing National Health Insurance membership. Long Queues and people sleeping outside NHIA offices	We have made it easy for people to renew their national health insurance membership on their phones without having to spend precious time in long queues.
23 Difficulty and inconvenience in enrolling for NHIS	We have made it easy for anyone to enrol for NHIS through the "MyNHISAPP" from a mobile device.
24 Difficulty and inconvenience in buying electricity units from ECG for your meter. Travel to ECG offices Long Queues at ECG Offices	ECG customers can now can easily buy pre-paid electricity units conveniently from wherever you are from your mobile phone even from abroad
25 Leakages in ECG revenue as a result of manual and cash-based operations	Digitalisation of ECG operations and all offices going cashless has plugged leakages and immediately increased revenues from GHC450m to GHC1.25 billion (an increase of 178%).
26 Bureaucracy and corruption in obtaining a passport	The online passport application processes are helping many people and making it easier to obtain a passport. Revenue has increased from GHC1.1 million in 2017 to GHC56.7million by 2021

Problems Inherited/Faced	What We Have Done So Far
71 Absence of warehouses for storing crops	Implemented the One District One Warehouse initiative. 80 warehouses constructed
<b>Others</b>	
72 No Right to Information Law	Right to Information Law Passed
73 It had long been advocated that new regions were needed to deepen decentralization	Six new regions have been created – Oti, Ahafo, Bono East, Savannah, North East and Western North.
74 Persistent Examination Leakages in BECE and WACSSE exams	The implementation of a policy of serialization of exam questions has eliminated leakages for BECE examinations and same will be done for WACSSE exams.
75 Large number of students unable to access senior high school education. No gender parity	Government has implemented free SHS. Enrolment has increased by 75% and there is now virtual gender parity. Enrolment has increased from 800,000 to 1.4 million.
76 Poor Performance with Aggregate Passes in CORE WASSCE subjects (average)	2015- 41% 2022 – 64% - significant improvement
77 Low National Proficiency in English Language for basic students	2015- 2% 2022- 38% - significant improvement
78 Large annual increases in electricity tariffs	The electricity tariffs over the last six years have seen the lowest increase for any six-year period over last thirty years!  Free electricity for lifeline users for a year during COVID-19  50% reduction in reduction tariffs for all other consumers during COVID-19
79 Large number of nuisance taxes	Abolished or reduced 15 separate taxes
80 Many students had difficulty paying BECE and WASSCE fees	Registration fees of BECE and WASSCE abolished. GHC 250 million released over last 5 years
81 Five years of Dumsor	No Dumsor for the last 6 years (except for temporary outages)

Problems Inherited/Faced	What We Have Done So Far
64 Energy Sector	<ul style="list-style-type: none"> <li>- Constructed several Transmission lines, substations and Bulk Supply Point.</li> <li>- 2331 communities connected to electricity grid between 2017-2022</li> </ul> <p>Ghana has also started the exploration of oil in the Voltain Basin (Northern and Sannah regions for now) following very promising seismic data.</p>
65 Access to Toilet facilities	<p>Increased the proportion of the population with access to toilet facilities from 33% to 59%</p> <p>Ghana has also started the exploration of oil in the Voltain Basin (Northern and Sannah regions for now) following very promising seismic data.</p> <p>Notwithstanding the global economic crisis from COVID-19 and the Russia-Ukraine war, agricultural growth under our government is stronger than we inherited.</p>
66 Sports Facilities	<p>Astroturfs – largest number in history. At the end of 2016 Ghana had only 3 astroturfs. Today we have over 80!</p> <p>10 Multipurpose sports stadia being constructed</p>
67 Zongo Infrastructure	<p>Under the Zongo Development Fund, over 400 infrastructure projects completed in zongo communities. Largest in history</p>
68 Vehicles and Equipment for security services	<p>Provided more equipment (vehicles, ammunition, etc) to security services than any other government in the fourth republic</p>
69 Inadequate courts and accommodation for judiciary	<ul style="list-style-type: none"> <li>- Constructing 120 courts and 150 bungalows for judiciary. The largest such in the fourth republic. 80 courts completed so far.</li> <li>- Court of Appeal Complex in Kumasi completed</li> <li>- Six new high courts in six new regions completed</li> </ul>
70 Uneven economic development across and within the various economic zones in the country	<p>Established the Development Authorities: Coastal, Middle Belt and Northern Development Authorities under the one constituency one million dollars program. 1,609 Projects have been completed so far.</p> <p>Northern – 304 Middle Belt- 345 Coastal -129 Ministry of SDI- 831</p>

Problems Inherited/Faced	What We Have Done So Far
27 Bureaucracy and corruption in clearing goods at the ports	<p>We digitized process of clearing goods at the ports through the paperless ports program.</p>
28 Difficulty and bureaucracy in applying for scholarships	<p>Following digitization at the Scholarship Secretariat, everyone is able to apply for scholarship and receive same in the comfort of his or her home via online applications.</p>
29 Fake insurance certificates and difficulty of checking the validity of insurance for motor vehicles.	<p>We have implemented the digitization Motor Insurance Database which can be accessed simply with any mobile phone by the insured, the police, and the public.</p>
30 Bureaucracy and difficulty in obtaining a driver's licence	<p>We have digitized the operations of DVLA and today our citizens have a much more convenient and easy way to acquire their driver's license and register their vehicles. Revenue increased from GHC71.5m (2013-2016) to 168.4 million (2017-2020, a 135% increase!</p>
31 Difficulty in finding pharmacies which stock prescribed medicines, prices of medicines and avoiding fake drugs	<p>The first national scale electronic pharmacy platform in Africa has been established. All major pharmacies onboard and the FDA is also part of the system to check fake drugs. Prescriptions can be uploaded, and drugs purchased online for delivery or pick up.</p>
32 No Wi-Fi access at our senior high schools	<p>We are providing free Wi-Fi to 700 senior high schools, the 46 Colleges of Education, 260 district education offices, and an initial successful pilot of 13 public universities.</p>
33 Lack of Cyberlabs in public schools	<p>Cyberlabs have been established in 702 public schools and 81 communities between 2017 and 2022</p>
34 Difficulty and bureaucracy in accessing government services	<p>We have developed a one-stop shop for government services (Ghana.Gov). The process of on-boarding all government institutions is ongoing. 1018 MMDAs onboarded. On this website you can apply for and obtain various government services from MMDAs.</p>
35 Very few people (only 4% of the adult population) had Tax Identification Numbers (TIN)	<p>By making the National ID number the TIN number, we have increased the proportion of adults with TIN numbers from 4% in 2016 to 85% now.</p>
36 Difficulty in collection and payment of property taxes	<p>Implemented a unified digital common property tax platform with a database and addresses of all properties in Ghana.</p>
37 Fake birth certificates, bureaucracy and corruption at the births and deaths registry	<p>Ongoing Digitization of the births and deaths registry with a link to the Ghana Health Service and NIA (Ghanacard) for a Ghanacard number to be issued to every child from birth.</p>

Problems Inherited/Faced	What We Have Done So Far
38 Football Clubs and Authorities lost revenue from corruption associated with ticketing for football matches	Implemented E-Ticketing for football matches. Major increase in revenue
39 Filling of Landing and Departure Cards at Kotoka International Airport and long departure processes causing delays for passengers	Through digitization, the filling of landing and departure cards have been abolished.  Departure processes have been reduced from 12 steps to 4
40 Databases across government not integrated	We have integrated the databases of the NIA with SSNIT, GRA, NHIA, Passport Office, etc. As a result, the Ghanacard number also is your SSNIT number, TIN number, and NHIS number
41 Cash payments for Public Transportation	Introducing an electronic Tap and Go payments system for public transportation such as Metro Mass, Ayalolo, Trotros, VIP, and STC. Pilot of the system has started with an expectation to roll out later in 2023.
42 Local taxi business being adversely affected by the operations of the digital Uber service	In partnership with the private sector, government is introducing a new ride hailing digital App for local taxis which will provide local taxis with an opportunity to compete with Uber vehicles with lower cost of transport for passengers.
43 There was no mobile App that allows government to communicate with citizens and residents and vice versa.	The Citizens App is being introduced to address this gap and provide a one mobile App for all citizens and residents to allow government to communicate with citizens and for citizens and residents to obtain government services, report complaints, etc. Work has been completed and the Citizens App will be launched in the next few months
44 Rampant corruption in public service delivery	<ul style="list-style-type: none"> <li>• Digitization: <ul style="list-style-type: none"> <li>- Ghanacard</li> <li>- Ports</li> <li>- DVLA</li> <li>- Passports</li> <li>- NHIA</li> <li>- Football tickets</li> <li>- Property Taxes</li> <li>- Birth Certificates</li> <li>- Ghana.Gov</li> <li>- Electronic payments through Mobile money interoperability</li> <li>- ECG</li> <li>- Motor Insurance Database Scholarships</li> </ul> </li> </ul>

Problems Inherited/Faced	What We Have Done So Far
60 Burden of fees for many in accessing TVET education	Government has implemented free TVET policy.  Ghana TVET Service Established, similar to the Ghana Education Service
61 Inadequate NCA licensed Fibre Optic Cable	Constructed more NCA licensed fibre optic cable than any other government in the fourth republic (93% of total) <ul style="list-style-type: none"> <li>• 2009-2016- 488km</li> <li>2017-2022– 6,758 km</li> </ul>
62 Inadequate Fish Landing Sites and Fishing Harbours	Constructed more fish landing sites than any government in the fourth republic: <ul style="list-style-type: none"> <li>- Axim</li> <li>- Dixcove</li> <li>- Moree</li> <li>- Mumford</li> <li>- Winneba</li> <li>- Senya Breku</li> <li>- Gomoa Feteh</li> <li>- Teshie</li> <li>- Keta</li> <li>- Osu</li> <li>- Ekumfi</li> <li>- Mfantseman</li> </ul> <b>Completed Elmina Fishing Harbour</b>
63 Health Facilities	<ul style="list-style-type: none"> <li>- Completed 10 polyclinics in the central region</li> <li>- completion of 5 polyclinics in the Greater Accra region</li> <li>- Completion of the rehabilitation of Tamale Teaching hospital Phase II</li> <li>- Completion of Bekwai District Hospital</li> <li>- Completion of University of Ghana Medical Centre Phase II</li> <li>- Construction of 13 district hospitals</li> <li>- 6 Drone delivery centers</li> <li>- Ongoing construction of hospitals under Agenda 111.</li> <li>- Comprising 101 district hospitals</li> <li>- 3 psychiatric hospitals</li> <li>- 7 regional hospitals</li> <li>- The largest health infrastructure since independence</li> </ul>

Problems Inherited/Faced	What We Have Done So Far
53 Interchanges	Constructed more interchanges than any other government in the fourth republic
54 Railways	Constructed more railways than any other government in the fourth republic: <ul style="list-style-type: none"> <li>- Achimota- Nsawam</li> <li>- Accra-Tema Rehabilitation</li> <li>- Kojokrom-Tarkwa</li> <li>- Kojokrom-Manso (94%)</li> <li>- Tema-Mpakadan (98%)</li> </ul>
55 Poor Rural telephony	2009-2016 – 78 sites installed. 2017-2022 – 1008 sites installed and an additional 503 in progress Notwithstanding the global economic crisis from COVID-19 and the Russia-Ukraine war, agricultural growth under our government is stronger than we inherited.
56 Inadequate structures Classrooms	Constructed more classrooms (basic, STEM and secondary schools) than any other government in the fourth republic: Total Classrooms: 5,411 Number of Seats – 252,470
57 Senior High Schools	<ul style="list-style-type: none"> <li>- 747 structures completed.</li> <li>- 31 E-Blocks (Community Day Schools) have been completed since 2017 compared to 29 as at the end of 2016.</li> </ul> <p>Building STEM schools for the first time in our history. 6 operational (Abomosu, Kpasenkpe, Awaso, Bosumtwe Girls, Accra Senior High Stem center and TVET school in ACCRA) and 4 under construction</p>
58 Public Libraries	Constructed more public libraries than any other government in Ghana's history. Increased the number of public libraries from 61 in 2017 to 115 in 2022 (Increase by 88%).
59 Weak Technical and Vocational Skills Development	<ul style="list-style-type: none"> <li>- The upgrading and modernization of all the - erstwhile 34 National Vocational and Technical Institutes (NVTI's)</li> <li>- Constructing thirty-two (32) State of the Art TVET Centres Project</li> </ul>

Problems Inherited/Faced	What We Have Done So Far
45 Cocoa beans not traceable to particular farms and unavailability of data on cocoa farms and farmers	The records of all cocoa farms and farmers have been digitalized with unique identities. This means that cocoa beans can be traced to specific farms. Ghana is the first cocoa exporting country to attain this.
46 Hospitals and clinics not digitized and network. Manual folders used across departments and hospitals	Digitization and networking of all hospitals underway. Completed 147 hospitals so far (including all teaching and regional hospitals). No manual folders required anymore in these hospitals. No missing folders.
47 Difficulties in the procurement of pre-mix fuel by fishermen	We have completed the processes towards the digitalization of the process of obtaining pre-mix fuel at the landing beaches. The first 50 digitized pre-mix fuel dispensers will be launched by July 2023 with the goal to cover all landing beaches by the end of next year.
48 Threat to Ghana's banking and financial system from cyber-attacks.	Following the Cybersecurity Information security Directive in 2018, The Bank of Ghana has commissioned a world class Financial Industry Command Security Operations Centre (FICSOC). All banks are connected to the FICSOC and receive real time security alerts, intelligence, traffic analysis etc. This is the first of its kind owned and operated within a central bank in Africa
49 High costs and inefficiency associated with the manual execution of tasks in the judicial system	Government launched an e-justice system in 2019, a paperless court system. Cases would be able to be filed electronically and the progress of such cases can be easily tracked. The platform automatically assigns cases to courts and judges, a move away from manual assignments
50 Inadequate vehicle to track the progress of government projects.	Government has completed work on an enhanced digital Delivery Tracker which has recently been updated and improved to track the progress of projects and programs across ministries, departments and agencies. Will be launched next month. This will be the first of its kind since
<b>Infrastructure</b>	
51 Roads	Constructed more roads than any other government in the fourth republic
52 Airports	Kumasi, Tamale airports constructed, and Sunyani Airport rehabilitated.
